ABOUT US

en+, member of TGW Live New York, is a fully integrated production house, blending creativity with efficiency. Formed with the help of veteran event professionals, en+ is the bridge between client requirement and supplier limitations in the region.

We understand what brands need, and we bring this insight in our production capabilities, reflecting the brand's image in all the event elements, including design, production, material used, to make the event come alive.

en+ is fully committed to delivering production solutions that exceed all expectations and set a benchmark for future projects.

OUR CLIENTS

Google

QUALITY

Cannot be emphasized enough; it is the most important inspiration behind all our solutions. From design to mock-up to final implementation, top quality is the defining feature of en+ projects.

QUANTITY

What is good work if it is not seen? The ability to deliver large quantities complements the drive for quality at en+. Good work may go unnoticed if we are unable to distribute it to its optimized scale. The true measure of success is large scale production – work that's visible, widely circulated and impactful.

QUICK

At en+ we understand time is money. en+ boasts of an efficient team of end-solution providers, designers and fabricators who are at hand to meet your tight deadlines. Quick turnaround on concepts and speedy processing is the hallmark of en+ work ethic.

EVENTS PRODUCTION

Events are all about impressing your audience.

So creating the right 3D design is meaningless without executing it with the highest standards.

From stage production, event decoration, to workshop areas, exhibition stands, and much more, en+ team has more than 11 years of experience in executing the biggest conferences of the region. For instance, 89000 sq. feet for the Knowledge Summit in 2018 was built in 72 hours, that shows the biggest capabilities and skilled talents of the en+ team, who never compromise on quality, safety and risk management.

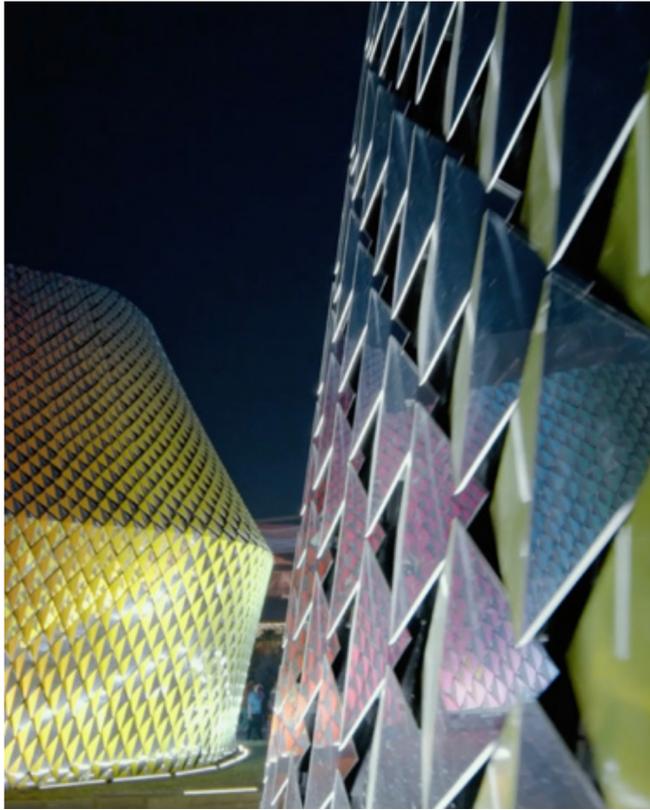

AUDIO / VIDEO & LIGHT (AVL)

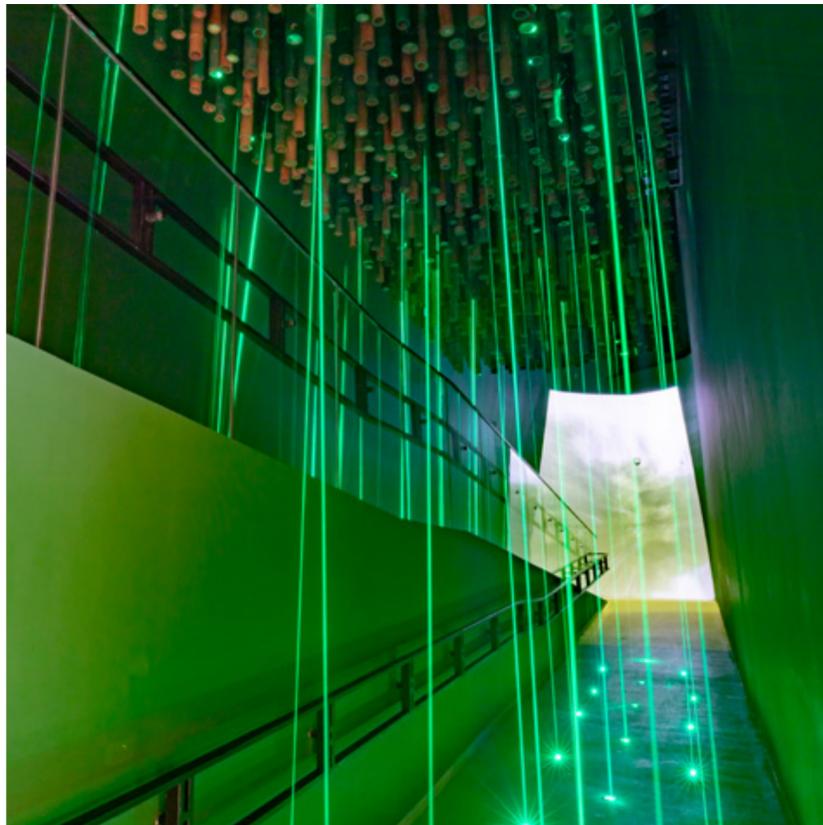

With more than 1250sqm of LED screens and high-tech sound systems along with the latest light technologies, enplus is specialized in developing the right controlled environment that enhances the visual appeal and experience of the events.

enplus adheres to stringent Health & safety protocols to ensure the protection of workers and guests during and post the installation of the systems to avoid any mishaps during the event.

We have expert engineers to take care of your event, manage the last-minute expectations and deliver quality service. Our team consists of specialists in sound, light, and video engineering, ensuring the smooth functioning of corporate events.

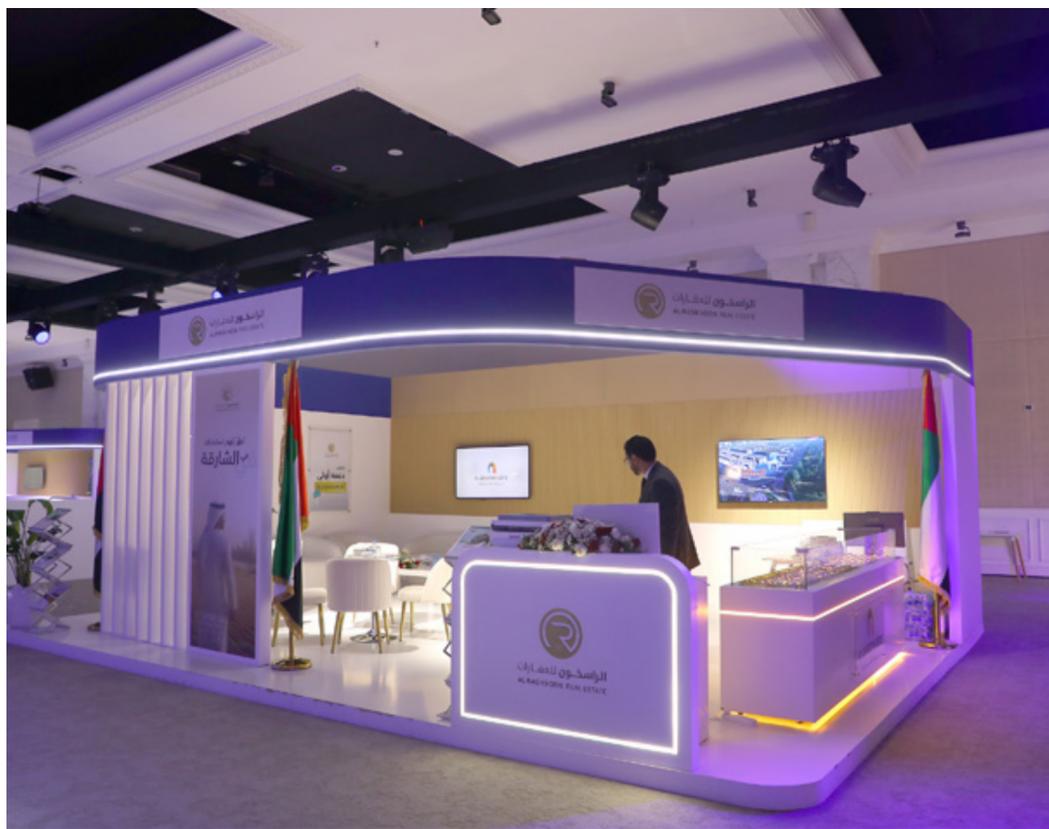

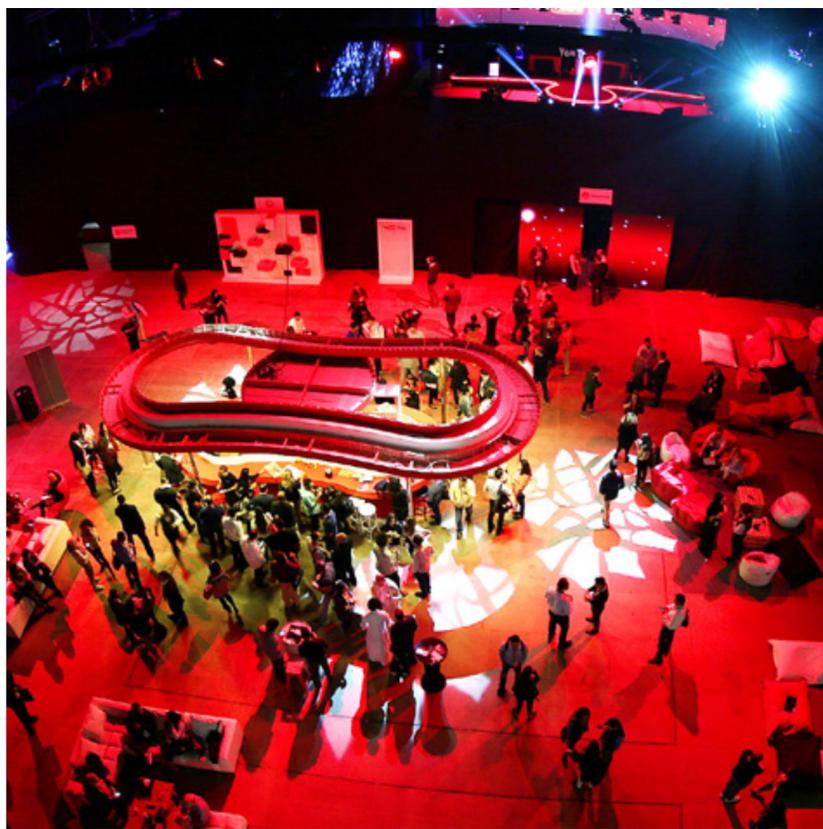

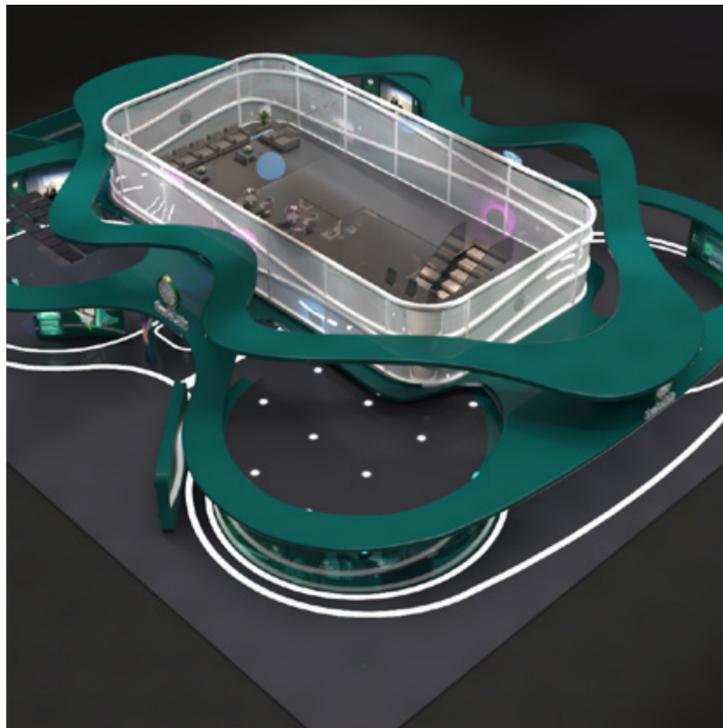

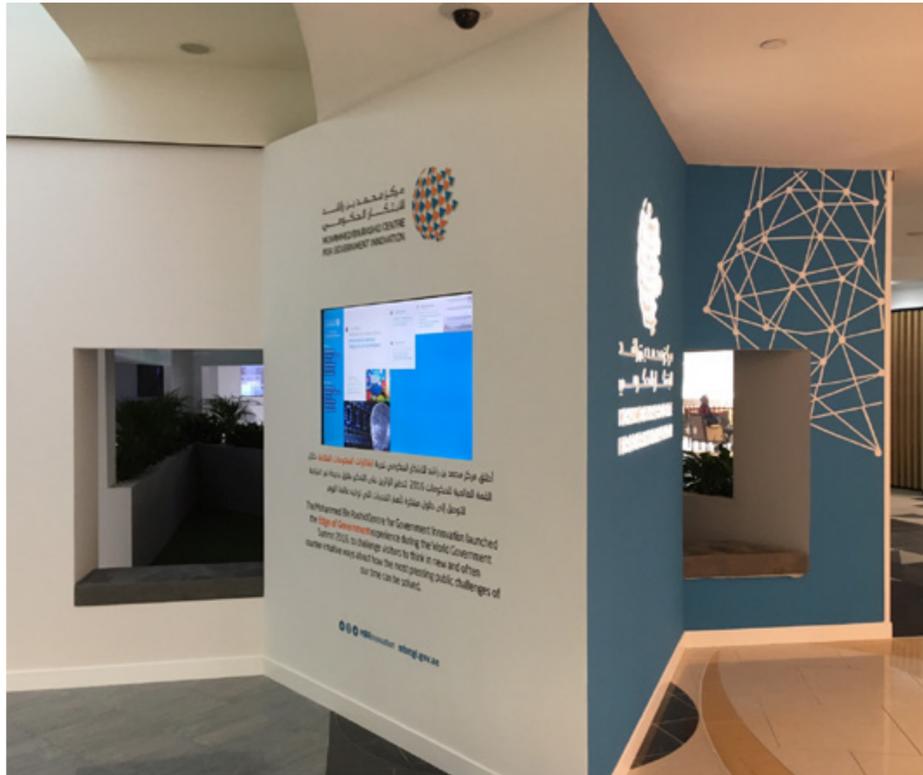

EXHIBITION STANDS

Participating in a trade show or an exhibition or exhibiting at a conference is one of the most important elements to strengthen your brand presence. And we make sure to build the highest standards of exhibition stands from design and execution perspective that will represent your brand by increasing the branding opportunities using digital printing, interesting brochure display, several screens for content showcasing and the latest technologies.
